

Build, Modernize, Automate, AI-Enable the Software Your Organization Runs On

Founded in 2011, Alphanuity has been delivering custom software development, application modernization, cloud engineering, systems integrations, data engineering, DevSecOps, automation, AI, digital transformations and technical program delivery for government, regulated, and mission-critical environments.

BUILD –
Custom
Software & APIs

AUTOMATE –
DevSecOps &
workflows

MODERNIZE –
Cloud & legacy
systems

AI-ENABLE –
Data &
intelligent
automation

CORE CAPABILITIES

**Software & Application
Development**

Custom applications, APIs, integrations, portals, and enterprise systems.

**Application Modernization
& Systems Integration**

Legacy modernization, architecture evolution, UX modernization, and platform integration.

**Cloud & Infrastructure
Automation**

Azure/cloud architecture, migration, infrastructure as code, observability, and resilience.

**DevSecOps & Quality
Engineering**

CI/CD, automated testing, release governance, security integration, and traceability.

**Data, AI & Intelligent
Automation**

Applied AI, analytics, intelligent workflows, decision-support systems, and process automation.

**Technical Program &
Project Delivery**

Agile delivery, technical leadership, planning, dependencies, risk governance, and stakeholder reporting.

DIFFERENTIATORS

Architecture-to-delivery leadership.

Senior practitioners move from modernization strategy into engineering execution.

Commercial delivery speed. Government-grade discipline.

Agile execution supported by documentation, QA, change control, and transparent reporting.

Senior practitioners stay hands-on.

Architecture, software, cloud, automation, and delivery leadership without unnecessary delivery layers.

Regulated & mission-critical experience.

Experience supporting public health, medical technology, and enterprise platforms where reliability, traceability, and continuity matter.

SELECTED PAST PERFORMANCE

Medical Device / Clinical Imaging

Role:

Cloud & Software Architecture

Scope:

Cloud Engineering, Platform Modernization, Custom Imaging Platform development and product delivery modernization.

Outcome:

Electronic data capture, usability, interoperability analytics, sub-orchestration control and insights for go-to-market acceleration and patient workflows.

MODULIM – Medical Device / Clinical Imaging

Role:

Enterprise Services & Applications – Web Modernization & Robotic Process Automation (RPA) supporting statewide public health initiatives.

Scope:

Modernization and workflow automation support for CDPH CAIR (California Immunization Registry), a secure statewide computerized immunization information system.

Outcome:

Delivered modernized web experiences and automated repetitive processes supporting CAIR operations.

CDPH CAIR – California Immunization Registry

Role:

Cloud/Native Modernization Engineering and Architecture Support

Scope:

Modernization of financial and estate data, client associations, signings, communications, procurements, flexibility, and customer outcomes.

Outcome:

Delivered cloud-native platform improving operational efficiency, scalability, and customer outcomes.

RPR – National Real Estate Technology Platform

MISSION FIT

Software, modernization, automation, AI, and delivery support for government, regulated, and mission-critical environments.

DELIVERY APPROACH

Build

Modernize

Automate

AI-Enable

DELIVERY OUTCOMES

- ✓ Faster delivery
- ✓ Scalable platforms
- ✓ Improved reliability
- ✓ Secure, traceable releases

TEAMING & ENGAGEMENT

- ✓ Prime or subcontract support
- ✓ Project-based delivery
- ✓ Technical leadership and implementation

Available for requirements discussions and teaming opportunities.

COMPANY SNAPSHOT

Legal Name Alphanuity Corp

Founded 2011

Business Size Small Business

SAM Status Active through Feb 26, 2027

UEI SP22PJ93TQ73

CAGE 17ZU7

Location Irvine, California

CERTIFICATIONS

California Small Business (Microbusiness)

Orange County Local Small Business (OCLSB)

Certificate ID 2051128
Through Mar 31, 2028

SELECTED FEDERAL CODES

NAICS

541511 (Primary) – Custom Computer Programming

541512 – Computer Systems Design

541519 – Other Computer Related Services

541611 – Administrative & General Management Consulting

PSC

DA01	DB02	DC01	DF01
DH01	DJ01	R408	R425

DELIVERY TEAM

- ✓ Certified Scrum Masters
- ✓ Enterprise Architects
- ✓ Cloud & Software Architects
- ✓ Senior Full-Stack Engineers
- ✓ DevSecOps / Automation Specialists
- ✓ Technical Program / Project Leaders
- ✓ QA & Test Automation Professionals
